Updating Chromebook

To update a Chromebook, follow these steps after logging in:

1. Click the clock in the bottom right corner of the screen.
2. Click the "Settings" icon, which looks like a gear.
3. In the left-hand menu, click "About Chrome OS."
4. In the "About" page, click the "Check for Updates" button.
5. If there are any updates available, they will begin to download automatically.
6. Once the updates have finished downloading, click the "Restart" button to apply the updates.
