Additional Legacy Website Help

- The basics - layout and navigation
- Adding and Editing pages
- Adding images to your slider
- Adding news and announcements to your frontpage
- Adding events to your calendar
- Updating your school directory (coming soon, for now email to support@slusd.us)
- Adding teacher websites - We are recommending teachers utilize the new Google Sites to create their classroom websites. It is very easy to create and edit as it feels much closer to Google Docs so it should be easy for teachers. There is a great little video tutorial on how to use this to create sites available here which will get them up and running. Please contact support@slusd.us for assistance creating these new sites and to send us the link to have added to your school directory.
